A Medical Day Spa

Where Science Meets Beauty

Welcome to Fusion Spa,

the newest secret
to aging well.

We deliver a unique fusion of science and beauty in a lavish spa setting. From a simple massage, to chemical peels and laser vein removal, we are dedicated to providing the most advanced options in skin and body treatments.

You will feel at ease in this relaxing retreat from the demanding schedules and stresses of everyday life. We invite you to unwind and let our signature concierge service anticipate your needs and exceed your expectations.

At Fusion Spa, we pride ourselves on our education, professional approach and the attention we provide to the needs of our clients. You will be treated to the luxury of a spa, with the trust of a physician.

When you feel good on the inside, you look radiant and rejuvenated on the outside. Discover how Fusion Spa can help you experience balance in your life... body, mind and soul.

David Kimble, MD

Hania Stawowy, MD

Debbie Kennedy, MD

(Plastic Surgeon Consultant)

About us...

Fusion Spa offers the most advanced beauty and age-defying treatments for women and men. Board-certified physicians, licensed aestheticians and other medically trained staff deliver these services in a professional and tranquil environment, unique to Fusion Spa.

Our staff is committed to making you feel comfortable and pampered. We invite you to enjoy a complimentary consultation to help you select a treatment that will be most beneficial to you.

We understand the demands of jobs and families, so we offer evening and weekend hours to help you "get away." You make the time... we'll make it an experience.

Our Services...

"These treatments were designed
with only one thing in mind – YOU."

Fusion Spa offers a wide array of medical and aesthetic treatments at our state-of-the art facility. These advanced treatments create lasting improvements in the way you look and feel. It's you...renewed.

Each initial consultation includes a complimentary **Profect™ Photo**. This computerized, digital technology will take images from dozens of angles to analyze wrinkles, textures and pigmentation of the face far more precisely than the human eye. This will allow the professionally trained team at Fusion Spa to decide which treatments will best improve the health of your skin.

Botox® Cosmetics

Are lines and wrinkles making you feel older than you are? An injection of Botox® will relax expression lines, reduce signs of wrinkles and prevent new wrinkles from forming. We use Botox injections around the eyes, and on the forehead, chin, nose and neck. One treatment is needed every four to six monthsPrice upon consultation

Cosmetic Fillers (Juvederm™ & Radiesse®)

Take years off your face, or put more "plump" in your smile. Cosmetic fillers are injected below the surface of the skin to fill in lines, folds and furrows; and to increase the fullness of lips. Fillers can be used for lips, lip lines, laugh lines, marionette lines (lines going down from either side of the mouth), facial and acne scars, and the hollows around eyes. Your doctor will decide which type of filler will be used. One treatment is needed every six to eighteen months.Price upon consultation

Intense Pulse Light (IPL)...

Laser can make unsightly marks on the body disappear. The laser treatment target unwanted pigment by bringing it to the surface and allowing it to either flake off naturally or be exfoliated with the help of microdermabrasion or chemical peels. Uneven skin tones, age spots, skin spots and rosacea can be corrected and the appearance of pores is minimized. IPL can be used on the face, hands, shoulders and chest. Three to six treatments are needed to see the best resultsPriced upon consultation

IPL Maintenance Kit

These products are used at home to revitalize, nourish, moisturize and soothe the skin while undergoing IPL (Intense Pulse Light) treatments.
IPL home care kit \$130
*Purchased with IPL Package\$65

Laser Hair Reduction

A safe way to permanently get rid of unwanted hair. Laser energy disables the hair follicle and eliminates its ability to re-grow. Our cutting-edge laser technology works up to three times faster than standard laser treatments, and can be used anywhere unwanted hair exists. Four to six treatments are usually needed. Starting at..... \$125

Laser Vein Removal

Whether caused by pregnancy or genetics, no one wants unsightly veins. Veins on the face, chest and legs can be removed with this modern treatment. Laser treatments target smaller veins, forcing them to collapse and be reabsorbed by the body. Clients can receive treatments as needed. Per 15 minute sessions \$150

Sclerotherapy

A treatment designed to permanently remove the larger tortuous or varicose veins so many are plagued with. A dissolving agent is introduced into the vein. The body will reabsorb the vein within two to four weeks.Priced upon consultation

Lipodissolve/Mesotherapy

Have you thought about having liposuction, but did not want to have major surgery? Lipodissolve is a non-surgical alternative that offers great results. Minerals and vitamins are injected beneath the skin to treat cellulite and fat on the abdomen, buttocks, thighs, back, bra line, chin and love handles. Priced upon consultation

Cellulite Reduction

Smooth away the unwanted dimples and roughness of cellulite on the legs, buttocks, hips and upper arms. We use FDA-approved Acoustic Wave Therapy (AWT) to emit gentle pulses that reconfigure your connective tissue. When the tissue is relaxed, the skin will feel and look smoother. Initial results can be seen following six treatments. The best results appear following twelve treatments spread over 24-36 days. Per treatment areaPriced upon consultation

Isagenix

Nutritional Cleansing unlocks the miracle of the human body

Nutritional Cleansing increases the health benefits you'll receive from the ancient health practice of cleansing. The herbs, vitamins and minerals that aid cleansing do two things:

- Accelerate the removal of impurities from the body
- Nourish the body with vital nutrients to rapidly revive health

A cleansed and revitalized body is stronger, resists illness better, is more efficient and performs at a higher level than one that is filled with impurities. Many people notice an ability to reach and maintain their ideal weight.

- Consultation available by appointment
- Educational seminars available throughout the year

Pregnancy Treatments

When you are pregnant, a little extra TLC can give you an incredible boost of energy, focus and comfort. We have specially designed treatments for expectant women and nursing mothers. Please allow our Fusion Spa team to guide you in selecting which treatments are most suitable for you during this time. Specially designed and physician-approved skin care products to prevent stretch marks and maintain healthy skin are available at Fusion Spa.
